Bonfire Productions is an innovative graphic design shop, which specializes in state-of-the-art multimedia solutions. Bonfire's core team is comprised of designers, illustrators, photographers, writers, programmers, instructional designers, audio engineers, foley artists, and computer technicians. Teams are assembled on a per project basis as determined by clients' needs. Bonfire also applies a loyal team of outside vendors to projects when additional resources are required for any given project or schedule.

Clients include:

- GE/Fanuc
- IBM
- Lotus
- Kodak Eastman Software
- Public Radio International
- Syndesis
- Starburst
- Forefield Financial Advisors
- National Science Foundation
- Public Action for the Arts

Bonfire takes pride in working closely with every client in order to reach a unique solution that best suits each client's needs. Our focus is on process, and the successful delivery of every client's message.
